WINSCREEN - OVERVIEW

Winscreen™ interactive displays bring the excitement of multimedia broadcasting to the casino floor. Sited at the table, Winscreen™ shows game results as they happen, broadcasts promotional messages and delivers customer service information including table limits, game rules, paytables, progressive jackpots and service call features.

These high-definition screens help attract players to the table, can offer guidance to novice gamers, and enhance the thrill of the casino for guests throughout the room, as well as provide a valuable advertising revenue stream.

The highly flexible front-end software allows a Winscreen to host multiple games, each with fully customisable screen layouts rather than generic presets.

Features:

- Single or dual sided
- LED stripes
- 23", 27", 27" slim, 28" Stretch, or 32"
- Portrait or Landscape
- Graphic layout completely customizable
- Optional security cameras on the side of the display
- Optional camera for winning numbers (Roulette)

WINSCREEN FOR ROULETTE

Winscreen™ display system is the icing on the cake which allows you on roulette table to show results, statistics and promotional material in HD. Tableswin roulette wheel and any other 3rd party wheels could send the data via camera, embedded sensors or on rim sensors. Also there is the keypad option, for manual entry data as min/max. Winscreen is fully customizable in a wide range of layout as customized advertising and video animation.
