

WINSCREEN

TABLESWIN®

TablesWin is a technologically advanced casino furniture brand at the cutting edge of design and manufacturing excellence. Created by the renowned Meneghetti Mobili interiors company, famous for its long-standing Bassano artisan joinery, TablesWin also draws upon decades of dedicated craftsmanship.

Our customised casino furniture is tailor made to meet our clients' exacting requirements, with each piece exemplifying our desire to meet their expectations. Combining a commitment to the finest raw materials and the application of the latest digital developments, we create the masterpieces of the future.

T A B L E S W I N .

SOFTWARE WINSCREEN™

Winscreen™ interactive displays bring the excitement of multimedia broadcasting to the casino floor. Sited at the table, Winscreen™ shows game results as they happen, broadcasts promotional messages and delivers customer service information including table limits, game rules, paytables, progressive jackpots and service call features.

These high-definition screens help attract players to the table, can offer guidance to novice gamers, and enhance the thrill of the casino for guests throughout the room, as well as provide a valuable advertising revenue stream.

The highly flexible front-end software allows a Winscreen to host multiple games, each with fully customisable screen layouts rather than generic presets.

TABLESWIN WHEEL PERFORMANCE

Thanks to Tableswin Wheel Performance, the operator can easily keep an eye on the progress of one or more wheels in real time. The information collected relates to the number of spins, the history of the winning numbers and many other useful information for the operator to understand if there are any malfunctions. All these data are expressed through easy-to-understand graphs and can also be exported to be used in the best possible way by the Casino for any analysis.

MONITOR WINSCREEN™ FOR ROULETTE

Winscreen™ display system is the icing on the cake which allows you on roulette table to show results, statistics and promotional material in HD. Tableswin roulette wheel and any other 3rd party wheels could send the data via camera, embedded sensors or on rim sensors. Also there is the keypad option, for manual entry data as min/max. Winscreen is fully customizable in a wide range of layout as customized advertising and video animation.

Winscreen works with:

- Tableswin wheels (via in-rim sensors or camera)
- 3rd party wheels (via camera, sensors or on rim reader head)
- Manual input (by keypad)

Features:

- Single or dual sided
- LED stripes
- 27"
- Portrait
- Graphic layout completely customizable
- Optional security cameras on the side of the display
- Optional camera for winning numbers (Roulette)

Camera Option

Keypad

MONITOR WINSCREEN™ LITE FOR ROULETTE

Winscreen 27" Lite demarcates your vision with an almost borderless screen. The stunning 27-inch flatbed switching screen not only offers QHD sharpness and factory calibrated color accuracy, but also maximizes your view thanks to its nearly borderless 4-sided design. Width: 47 mm. It can be single side or double sided.

Top View

Winscreen 27" Lite

Winscreen LITE works with:

- Tableswin wheels (via in-rim sensors or camera)
- 3rd party wheels (via camera, sensors or on rim reader head)
